Unlocking Your Child's Genius starts with the idea that every child has an inner genius. Young children are like roosters up at dawn making lots of noise and asking questions. Then by about 7 or 8 years they often stop asking questions and become anxious. Unlocking Your Child's Genius provides a way for parents and grandparents to keep children's genius ignited.

If you have a child who is anxious about making mistakes, puts themselves down or gives up, feels scared about tests and assessments, is losing motivation or labels themselves as not as good as other children – this presentation is the answer you need. This seminar is designed to help your child's most important teacher – YOU – develop the skills and ingredients of genius in your child.

Bookings are essential, there is no charge to attend. RSVP by 12 June to **community@ivanhoe.com.au**
