

March 2014

Dear Neighbours

The School submitted a revised Development Plan to Banyule City Council in December 2013. Further to my last communication in February, I would like to update you on progress.

Banyule City Council has requested that the School provides further clarification in certain areas of the plan, including parking and traffic management, student numbers, access to the proposed underground car park and general amenity.

The School is currently working through the submission and will provide responses to the Council in the next few weeks, after which the Council will provide for a further public consultation period.

Yours sincerely

Roderick D Fraser
