

# In the Community

Newsletter of Ivanhoe Grammar School

SEPTEMBER 2013

Dear Residents

I am writing to inform you of a new initiative that has been undertaken by Ivanhoe Grammar School to increase the lines of communication between the School and our local residents.

On the School website, we have dedicated a section to Community Communication.

The link is [www.ivanhoe.com.au/Discover/Introduction/Community.html](http://www.ivanhoe.com.au/Discover/Introduction/Community.html).

Here we intend to post various notices, updates, alerts and items of interest for those who live in the immediate and surrounding areas to the School.

Topics that we hope to address include:

- Upcoming events that may impact local residents
- School holiday dates
- Updates on the School's Development Plan application
- Community interest stories

In a recent letter to our current Parents and Staff, I commented that 'we are committed to working with our neighbours to ensure that we continue to add value to the area through quality developments and complementary landscaping that are beneficial to all stakeholders.'

As the School heads towards its Centenary Year of 2015, we are very mindful of our long-standing place in the community and look to maintain and enhance that in the next century.

In order to support the School's commitment to greater Environmental Awareness, hard copy correspondence will now be kept to a minimum, with the online updates being our primary communication tool with Residents (as it is with our Parents, Staff and Students).

I look forward to keeping in contact with you through the pages of the School website as we work together as members of this community.

Yours sincerely

Roderick D Fraser  
Principal
